Introduction

This Geerinckx hen is superbly bred to the two key cock birds Gladiator and Rapido 1 that have dominated the Geerinckx National lines. This hen carries the stunning deep split eyes often found in the Geerinckx pigeons which are a wonderful relief from the amorphous white eyes of the Ceuster pigeons. I believe the Australian light is very different to that encountered in Europe. As such I want my team of race birds to have a variety of eye types and iris colours. This hen has the typical black lustrous feather of many of their key breeding lines. A superb addition for the collectors of the wonder Geerinckx family of pigeons.

SIRE

Gladiatrix BE13 6143728
"Probably the best son of Gladiator we have ever had. Sire and Grandsire of many winners including 1st Federation and Combine"
Derek Nicholls
